

ModuleX Liquid Flow Computer

Revision History Table

Revision	DB Version	Release Date	Changes
114	2.01	01/08/21	Initial Release
115	2.01	01/13/21	35-Day revolving db buffer
116	2.01	01/18/21	Daily and Monthly DB improvements
117	2.01	01/23/21	Batch DB modifications
118 thru 120	2.01	02/03/21	Report modifications, Web enhancements, Snapshot DB mod
121	2.01	02/05/21	Snapshot DB indexing modified
122	2.01	02/09/21	DB Directional switching bug
123	2.01	02/12/21	60 sec buffer enhancement, VCF Table correction
124	2.01	02/18/21	Minute DB time sync fix
125	2.01	02/19/21	Decimal Precision adjustments all reports, Config name changes
126	2.01	03/04/21	TBL23E addition
127	2.01	03/06/21	Reboot sequence modifications
128	2.01	03/31/21	Rollover counter logic for 32bit accumulators
129	2.01	04/02/21	3-point Calibration bug fix
130	2.01	05/01/21	Batch report and on-the-fly report logic enhancements
131	2.01	05/19/21	Added: Revision and Revision Date registers New default system credentials
132	2.02	01/03/22	1.) Added: In Progress registers (Batch, Day) 2.) 4-freq single module implementation 3.) Added: configuration – MX-FC/A1-D-B-C-E
133	2.02	01/25/22	Custom Display implementation – Modbus New Display logic
134	2.02	02/08/22	Admin GUI mod. Added module identifier and revision
135	2.02	03/22/22	Correction for 4-freq (FIM) time period detection
136	2.02	04/08/22	215 MVS reconnect routine Added: 215 Diagnostic features
137	2.02	05/20/22	Added: Local Firmware Update feature
138	2.02	06/16/22	Added: Batch end command – Digital Input
139	2.02	07/07/22	RS-485 comm ID bug fix, Batch sequencing enhancement
140	2.02	08/30/22	Database bug fix (critical), boot sequence enhancements
